

TRIANGLE COMMUNITY COALITION

Balanced Solutions
FOR A BETTER TOMORROW

WE PROMOTE public policy
that encourages a balance
among economic growth,
development, the environment
and community needs while
protecting the rights and
interests of property owners.

TCC:

TRIANGLE
COMMUNITY
COALITION

an alliance of businesses, individuals and organizations bringing balanced solutions to growth issues in our communities.

- TCC takes smart, progressive stances on development and growth issues that balance individuals' rights and responsibilities.
- We preserve the American Dream of owning a home or property and focus on community concerns for traffic, schools and the environment.
- We recognize that local elected officials have a direct impact on the ability of families to buy a home or sell property.
- We believe positive growth comes from ensuring that living in the Triangle region is affordable for all citizens.

The TCC Philosophy

1

FAMILIES AND NEIGHBORHOODS MATTER

We believe families care about the right to live and work where we want. Freedom to control private property is a bedrock principle that allows our communities to grow and prosper.

2

LAND USE MUST BE BALANCED

We believe growth plans that balance the needs of the environment, the community, property use and affordability are critical to keeping the Triangle growing in the right direction.

3

GOOD PLANNING SOLVES PROBLEMS

TCC takes a leadership role to promote effective planning by the community to meet the needs for schools, transportation, and availability of water and sewer.

WE BELIEVE that it is the right of citizens who live and work here to define smart patterns of development, and it is our goal to connect these citizens to elected officials and advocate for families, homeowners, and businesses on key issues.

The TCC Philosophy

4

EVERYONE BENEFITS FROM GROWTH

Good jobs and a strong economy in the Triangle are directly connected to our area's ability to attract and manage growth. We believe improving transportation, classrooms, parks and other services should be the responsibility of the entire community.

5

REGIONAL COOPERATION WILL KEEP THE TRIANGLE MOVING IN THE RIGHT DIRECTION

We believe regional partnerships – that include citizens, businesses, environmental groups and community leaders – can improve the quality of life in the Triangle without infringing upon private property rights.

Join the Coalition

TCC members share strategies and gain access to the latest growth trends and issues. Join TCC and have tools available to make smart decisions about tough issues that face our community.

BENEFIT FROM:

- **Representation at the local and state levels of government**
- **Collective clout to engage and influence public policy and public opinion**
- **An early alert on important issues**
- **Grassroots mobilization on issues and important elections**
- **An ability to raise public awareness on critical issues**
- **A strong source for information**
- **Publications and resources to keep you informed on important growth issues**
